

INSTALLATION GUIDE ON MAC

SYSTEM REQUIREMENTS

- Available USB 2.0 port
- Minimum requirement to use one USB Display Adapter:
 - CPU: Intel dual core 2.0GHz
 - RAM: 1GB memory
- 2~3 Displays:
 - CPU: Intel i5 2.8GHz or higher
 - RAM: 4GB memory or higher
- Higher processor recommended for multi-displays (maximum 4 displays) and optimal performance.
- Mac Lion (10.7) or Snow Leopard (10.6)

SUPPORT DISPLAY RESOLUTION

Aspect Ratio	Resolution	Color Depth	Aspect Ratio	Resolution	Color Depth
Wide Screen Display			Standard Display		
16:9	2048 x 1152	16,32 bits	4:3	1600 x 1200	16,32 bits
16:10	1920 x 1200	16,32 bits	4:3	1400 x 1050	16,32 bits
16:9	1920 x 1080	16,32 bits	5:4	1280 x 1024	16,32 bits
16:10	1680 x 1050	16,32 bits	4:3	1280 x 960	16,32 bits
16:9	1600 x 900	16,32 bits	4:3	1152 x 864	16,32 bits
16:10	1440 x 900	16,32 bits	4:3	1024 x 768	16,32 bits
16:9	1366 x 768	16,32 bits	4:3	800 x 600	16,32 bits
16:9	1360 x 768	16,32 bits			
16:10	1280 x 800	16,32 bits			
15:9	1280 x 768	16,32 bits			
16:9	1280 x 720	16,32 bits			

NOTES

- MAC products did not support USB 3.0 at this moment, therefore we suggest USB 2.0 for 'Office Application' only. Video playback is not recommended due to USB 2.0 bandwidth limitation causing imperfect video performance.
- Do not recommend to connect USB 3.0 DISPLAY ADAPTER via the external USB Hub.
- Unplug the USB 3.0 DISPLAY ADAPTER before executing the Setup or un-installation programs.
- System reboot is required for the driver installation.
- Connect the external display device (monitor/projector) to the VGA/HDMI connector of USB 3.0 DISPLAY ADAPTER before connecting to USB port of your Mac computer
- LED indicator: Red light up→ USB 2.0
- Support multi-display up to three adapter for office application.
- Please visit our website to update the latest driver version for the good performance.

DEVICE DRIVER INSTALLATION

Installing the device driver enables your computer's operating system to recognize the **USB 3.0 DISPLAY ADAPTER** once it's connected. Please check your operating system and refer to the appropriate installation procedure to begin installing the device driver.

This section illustrates the simple device driver installation procedure for computer running **MAC Lion (10.7)** operating system. Please make sure the USB 3.0 DISPLAY ADAPTER is **unplugged** from your Mac Desktop or Mac Notebook before executing the setup program.

Step 1

Insert the Driver CD into the CD-ROM drive; and run the .dmg file to load drivers.

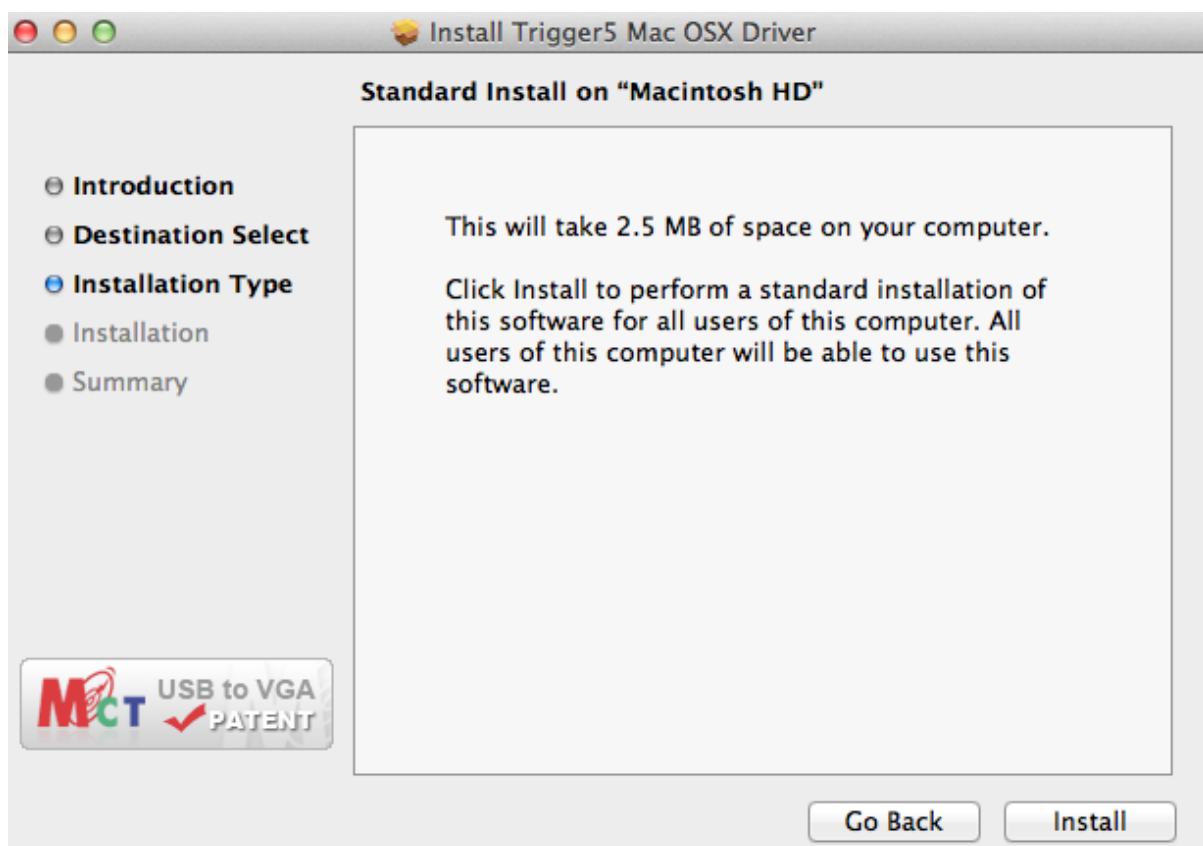

Step 2

Click "Continue" to proceed.

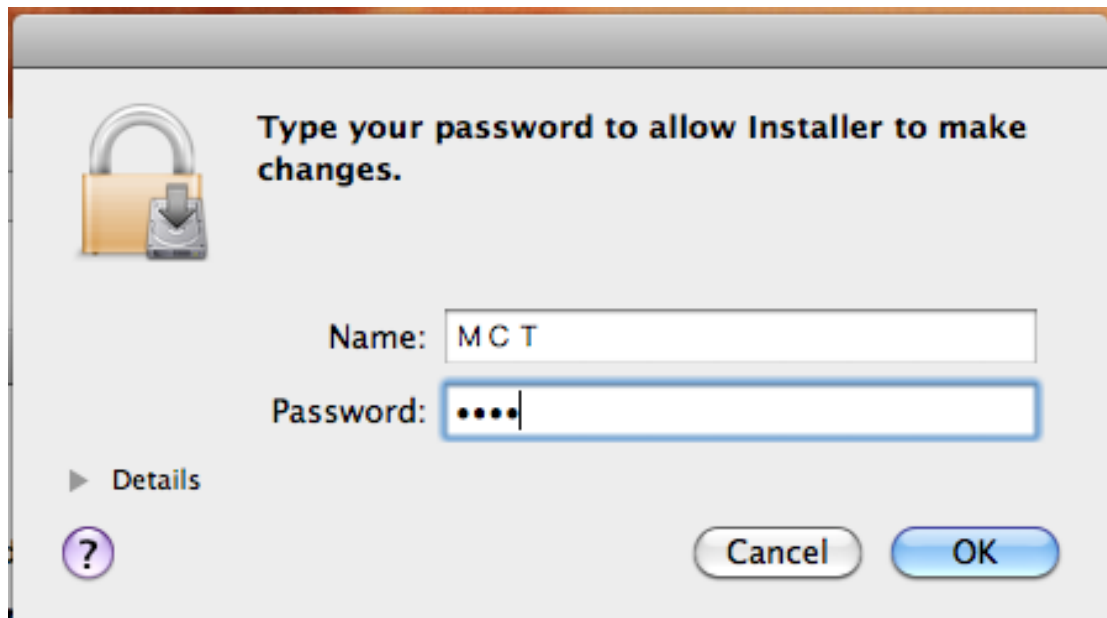

Step 3

Click "Install" to proceed.

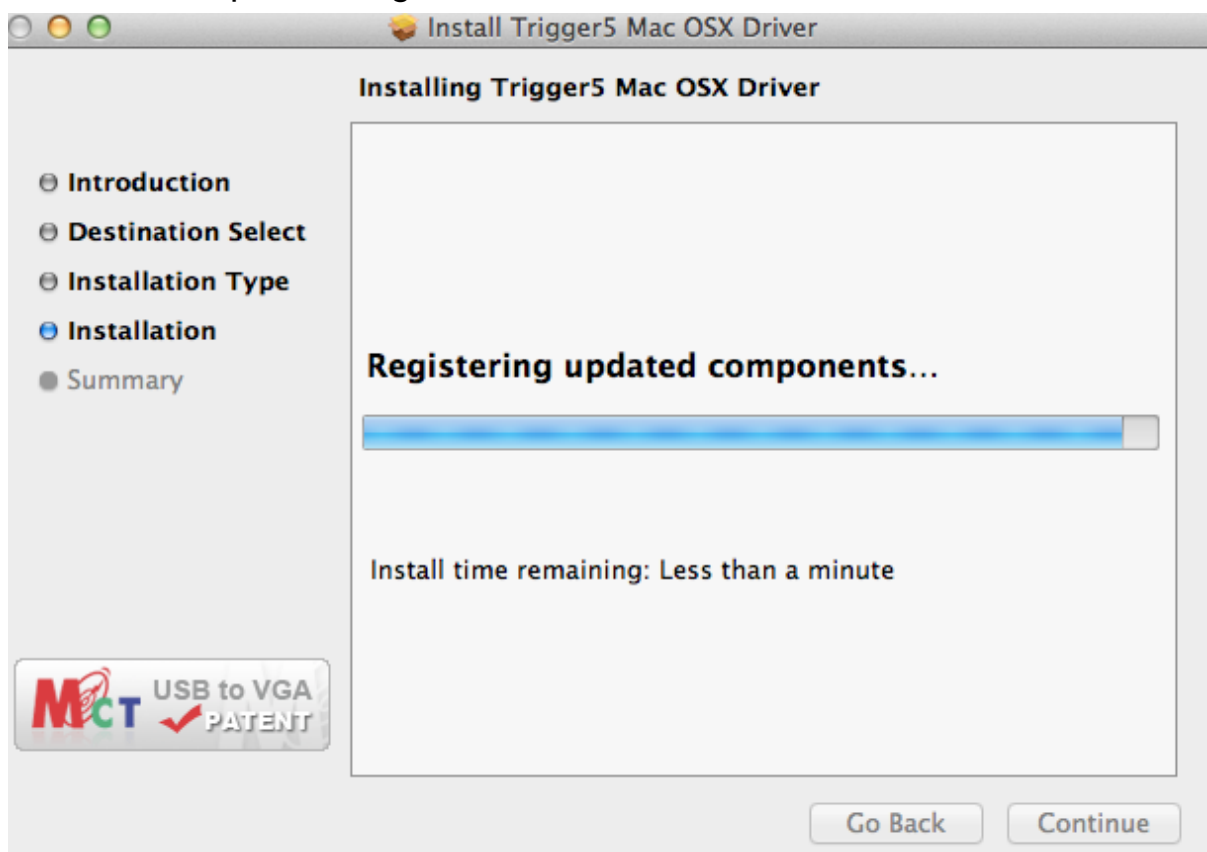

Step 4

Type in your password and click “OK” to continue.

Step 5

Installation is processing... This will take a few minutes.

Step 6

Click “Restart” to complete the software installation

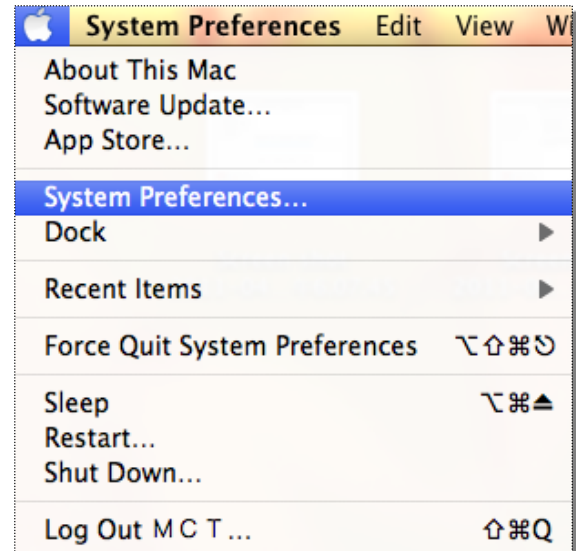

Step 7 (After System Reboot)

1. Connect the external display device (monitor/projector) to the VGA/HDMI connector of **USB 3.0 Display Adapter** and turn on the display device
2. Plug the **USB 3.0 Display Adapter** into the USB port of your Mac Desktop or Mac Notebook. The screen will turn on automatically, and be in “Mirror Mode”

FUNCTION INSTRUCTION (MAC LION)

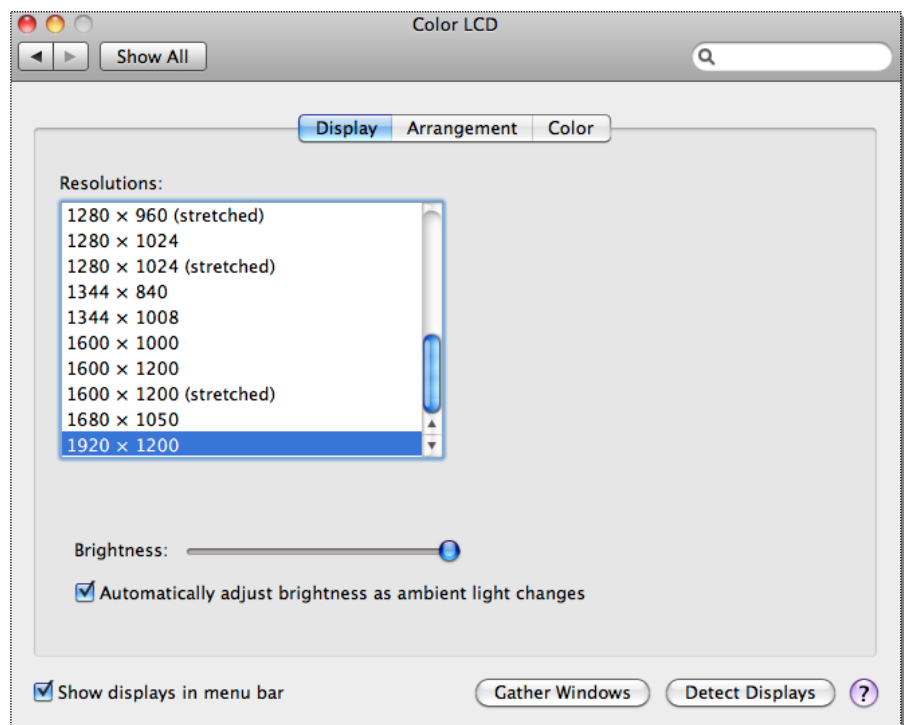

DISPLAY ARRANGEMENT

Go to , and then select “**System Preferences...**”

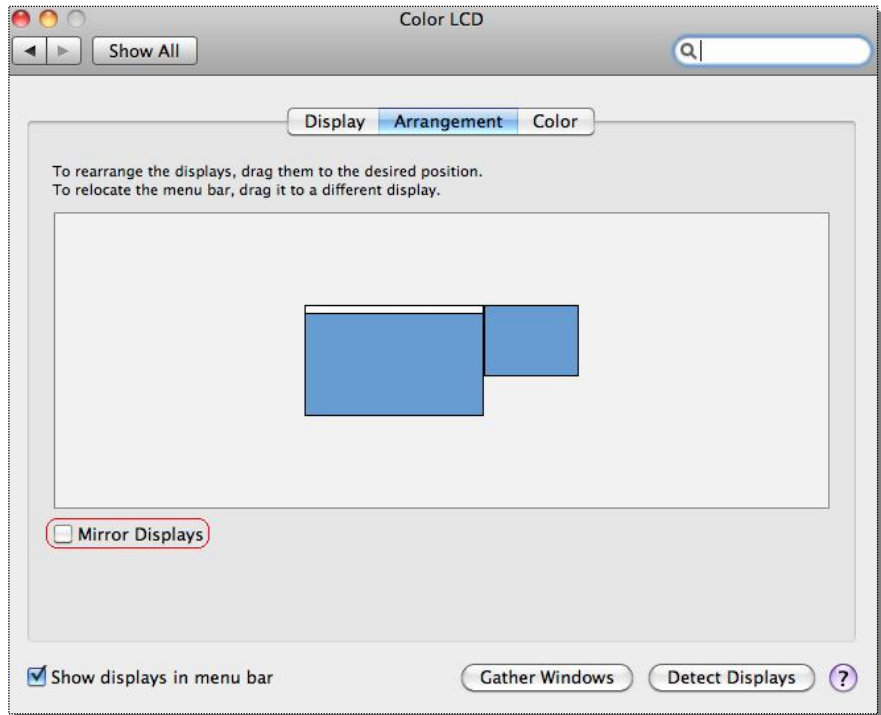

On “**System Preferences**” click on the “**Display**” tab. It will pop up this screen.

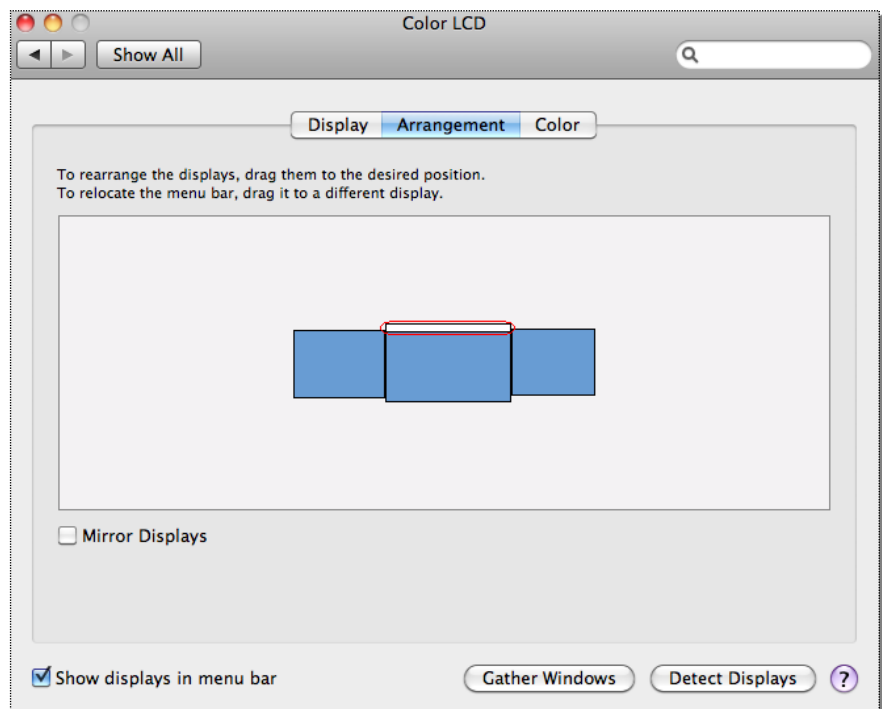

On this screen, you can adjust the resolution, display mode and color range.

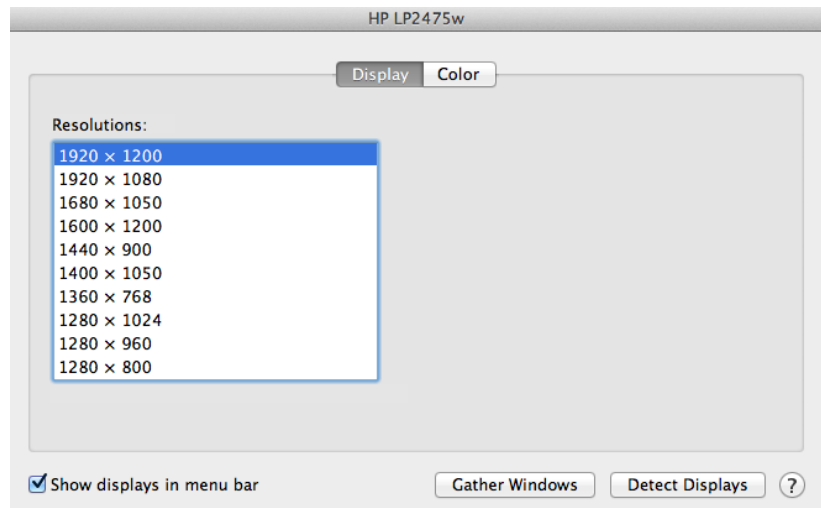

Click on the “Arrangement” tab, and uncheck “Mirror Displays” to extend the screen.

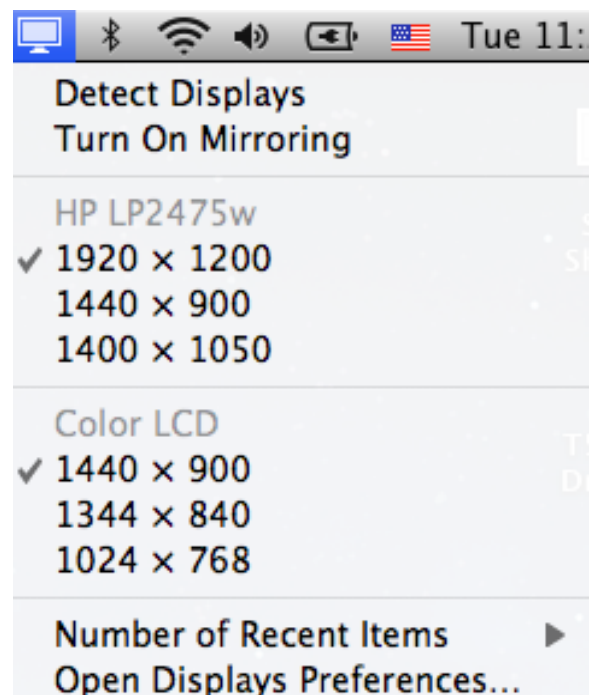

Move the bar to assign any display to Primary and the display location.

- ✧ If you cannot see the Display window to adjust your secondary monitor resolution, click on the “**Gather Windows**” button.

- ✧ To simplify using the **USB 3.0 Display Adapter**, click “Show display in menu bar.” You will see the display icon  that you can double-click on at any time.

DEVICE DRIVER UN-INSTALLATION

Step 1

Unplug the **USB 3.0 Display Adapter** from the USB port

Step 2

Run Un-installation program

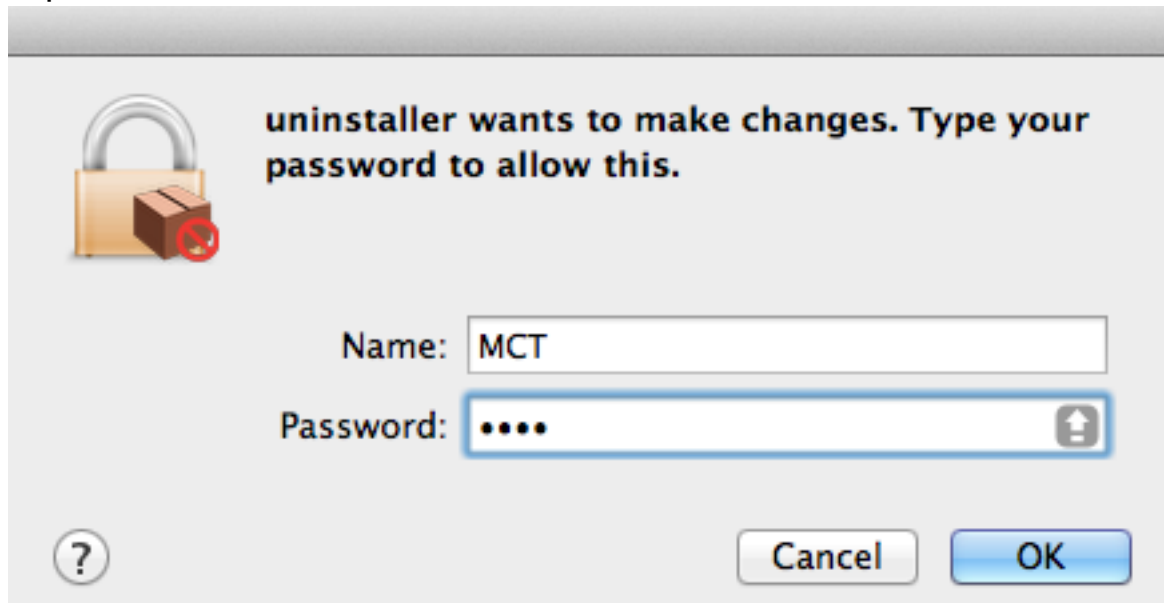

Step 3

Click "Uninstall and restart" to proceed

Step 4

Type in your password to allow un-installation and click “OK” to proceed

Step 5

Click “Restart” to reboot your system
