

## **Adding Printer Driver Software**

The latest PCIeParallel driver software for MCS9901 is released for Mac OS X v10.5 (Leopard). Information about updating and adding the printer driver software in Mac OS X v10.5 is provided below.

### **If the printer driver set is installed as part of the default Mac OSX v10.5 installation**

After completing the Mac OSX v10.5 StarExDriverDisk driver disk, follow these steps to set up a printer queue for the PCIeParallel product.

- ❖ Open **System Preferences** .
- ❖ Select **Print & Fax** and make sure that the list of printer queues includes a printer queue for the PCIeParallel product. Else please wait till it appear.(10Sec approx)

If no printer queue appears for the PCIeParallel product, follow these steps to create a new printer queue:

- On the left side of the **Print & Fax** screen, click the plus icon ().
- ❖
- **Figure 1: Print & Fax screen**

The printer queue addition screen appears.

- Click to highlight the product that needs a printer queue and then click **Add**.

**NOTE:** Depending on the connection speed, it might take as long as a minute to complete the list of products connected to the computer.

- **Figure 2: printer queue addition screen**

➤ The printer queue is created.

## **If the PCieParallel printer drivers are not automatically installed as part of the default Mac OS X v10.5 installation**

1. Insert the Mac OS v10.5 DVD and click the DVD icon to open it.
2. Double-click **Optional Installs** in the lower-right corner of the screen.

3. In the **Optional Installs** folder, click **Optional Installs.mpkg** .

**Figure 3: Optional Installs folder**

4. Click **Continue** , read the license agreement that appears, and then click **Agree** to accept the license agreement.

**Figure 4: License agreement**

5. In the list of printer drivers, scroll down to the printer name connected to the PCIeParallel port. For example if HP printer is connected, then scroll down to **Hewlett-Packard Printer Drivers** , select the check box, and then click **Continue** .

**Figure 5: Select Hewlett-Packard printer drivers**

6. Click **Continue and Install** to begin the HP printer driver installation.

**If PCIeParallel printer driver is not detected with its default driver for print, please select Generic PCL Laser Printer, 1.3**

7. Click **Add and Install** to Add the Epson printer in the printer queue addition screen.
8. Select Generic PCL Laser Printer drivers only if default drivers are not detected.
